TICKET DETAILS

I am a graphic designer/visual communicator with an in-depth knowledge of industry standard software and the ability to work in a Mac or Windows environment. While working with deadlines on multiple projects, I am able to visualize creative concepts to communicate ideas effectively. My aptitude for multitasking and time management will be valuable assets to your business. Coupled with my understanding of traditional film and digital photography, composition, advance lighting techniques, and color correcting, I have the ability to handle a wide range of diverse projects.
